### TIPS FOR PRINTING & USE:

If possible, print on card stock and laminate or cover with clear contact paper for durability.

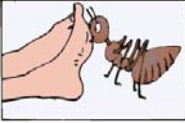

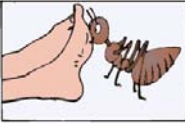

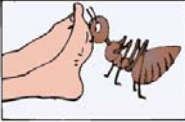

#### Ideas for use:

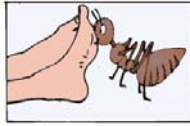

1. Use the word cards for group learning or as a self-correcting independent learning activity.
2. For group learning, first place word cards out for casual browsing. When you have several minutes of time to use up, spread out the 2-page game sheet and have one learner at a time choose one word card (answer flipped over or hidden), read the Spanish term out loud to the group, and have the first chance to guess its meaning. If they do not know the term translated into English, allow other learners to guess. Once the correct answer is given (guessed correctly or flipped and read out loud), place the card vertically, covering the next number still open on the game sheet.
3. See how many toes you can cover before your time runs out (before the bell rings?) - will today be another 6-toe day, or will you make it all the way to covering 10 toes?
